The screenshot shows the QtSPIM simulator interface. The main window has a menu bar (File, Simulator, Registers, Text Segment, Data Segment, Window, Help) and a toolbar. Below the toolbar are four tabs: FP Regs, Int Regs [16], Data, and Text. The FP Regs window is open, showing floating-point registers FIR, FCSR, FCCR, and FEXR, all set to 0. The Int Regs window is also open, showing integer registers FG0 through FG23, all set to 0. The Data Segment window is open, showing the memory and registers cleared. The Text Segment window is open, showing the program code. The Console window is open, displaying the following text:

- Ο χρήστης στον καθορισμό πράξης δίνει ένα λανθασμένο γράμμα και ένα σύμβολο· το πρόγραμμα περιμένει να λάβει ένα σωστό εμφανίζοντας ξανά και ξανά: « Please determine operation, entry (E), inquiry (I) or quit (Q): »

Ο χρήστης τερματίζει το πρόγραμμα.
